Lyon

**RivMax™
 Boltless
 Shelving
 System**

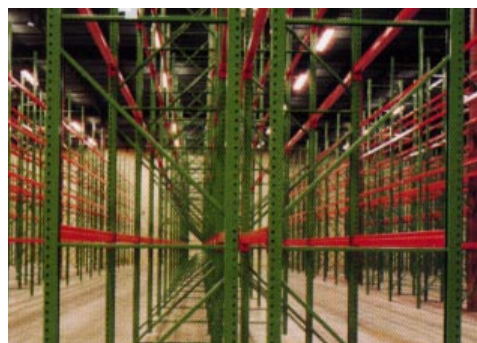

RivMax™, the hand-loaded metal framing system, is quick and easy to assemble and disassemble.

- Clear shelf access from all four sides.
- Particle Board, plywood, oriented strand board, metal and wire shelf surfaces available.
- Available in large variety of sizes—heights to 22', widths to 8' and depths to 4'.

**Modern
 Equipment**

MECO's cantilever rack line includes everything from simple bar stock storage to extra high capacity structural rack.

Husky

Husky pallet rack and wire decking is in stock in all popular sizes for 48-hour shipment. Husky's quick production time allows shipment of any size rack in a few short weeks.

Bins

Gould, Stackbin and Akro bins and tote boxes come in sizes from cubic inches to cubic yards for all your parts storage needs. They are available in floor, bench, mobile and wall mount configurations.

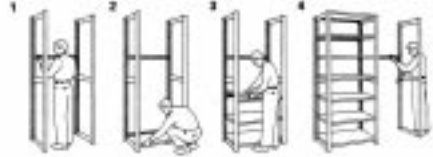

Wire Shelving

Eagle and ISS manufacture shelving, carts and security enclosures for clean or sanitary storage as well as sensitive ESD applications. Select from a variety of guaranteed corrosion-resistant coatings as well as bright decorator colors.

Aurora Shelving

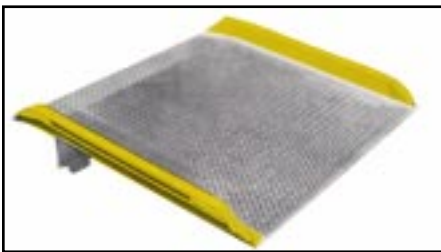

Aurora's Quik-Lok™ system uses three modular components that snap together without tools or hardware. It's available in 22 colors for basic storage, filing, library and movable applications.

Rolling

Dock Equipment

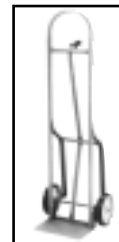

colson Casters

The industry leader since 1885, Colson offers over 30,000 models. Colson offers state-of-the-art plastic wheel technology to solve any operating problem. A strong distributor network, backed up by a large factory inventory assures quick delivery time for your order.

Handtrucks Drum Handling Ladders

Lifting

Presto

Presto offers a full line of hydraulic scissor lift tables, tilt tables, turntables, and container tilters with an impressive range of capacities up to 12,000 lbs. Presto stackers come in both manual and self-propelled models, with lift heights to 13 feet and weight capacities to 3000 lb.

Benches & Seating

Carts

Lyon

Lyon's broad line of industrial benches includes eight different bench top materials and a wide range of leg options and accessories. Their industrial seating line covers everything from basic stools to clean room and ESD applications.

Kewaunee

Kewaunee's modular workstations for assembly and computer management applications, are strong, easily adjustable and available in many sizes and configurations.

Enclosures

WireCrafters

For over 25 years, WireCrafters has manufactured a revolutionary style of woven wire partition. Unlike conventional designs, WireCrafters' all-welded modular post and panel design assembles quickly with a minimum number of components.

Morfloor

Create more working room by utilizing the space above your floor. Order your structure with a wide range of deck, stair and railing options. We offer complete design and installation services. Save on freight as well. Morfloor manufactures locally.

National Partition

Modular offices, clean rooms and outdoor shelters all assemble quickly from prefab components. Structures come complete with built-in wiring, lighting and HVAC.

We also offer a full line of office storage equipment...
