Contour Plus Café Tops

At first glance, it's easy to see that Virco's new Contour Plus café tops give you the seamless textures and profiled edges of 'all-wood' surfaces. But as their name implies, there's a lot more to Contour Plus than meets the eye.

Unlike solid wood or wood veneer tables, Contour Plus tops can be easily cleaned with soap and water. In addition, their durable surface materials help prevent scratching and burnishing. What's more, UV-resistant Contour Plus tops maintain a colorfast appearance that won't yellow with the passage of time. And because their high-quality components are also far less costly, Contour Plus tops offer a reasonably priced alternative to wood and wood veneer products.

As a complement to Virco's palette of woodgrain patterns, Contour Plus tops are available in a selection of speckled and solid-color choices. Their elegant good looks and quality construction make Contour Plus the top name in the field of café furniture.

Contour Plus Top Colors

Contour Plus Top - Model 6336RMP
Shown with Natural Maple top mounted on Virco's model 662-33 Lunada™ Series base. (Tops and bases sold separately).

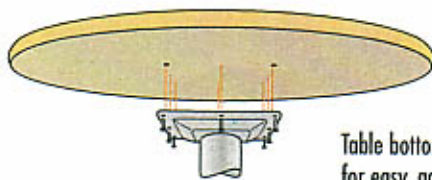

Table bottoms have two pilot holes for easy, accurate alignment of Virco single-column bases.

Model	Top Size	Color	Model	Top Size	Color

633042MP	30" x 42"		6342RMP	42" Round	
633048MP	30" x 48"		6348RMP	48" Round	
633636MP	36" x 36"				
634242MP	42" x 42"				

Lunada™ Series Bases

Virco's new Lunada™ table bases neatly combine contemporary styling with easy assembly. Conceived by award-winning designer Peter Glass, Lunada's elegant x-shaped profile features a clean, precise lap-joint foot connection complemented by playful oversized ABS glides. Sleek bi-point models are also available.

Sturdy die-cast aluminum foot construction lets these attractive bases stand up to the demands of high-traffic environments. What's more, Lunada's heavy-gauge steel column locks securely into its upper foot to eliminate needless top rotation. In addition, Lunada's durable ABS glides adjust in a 1/2" range to help level bases on uneven floors.

Lunada bases come in 13 models to accommodate a full range of table tops. Stand-up height and wheelchair height bases complement our standard height models.

Lunada™ Café Seating

Stylish Lunada™ chairs by award-winning designer Peter Glass give you a selection of comfortable, elegant seating alternatives for restaurants, food courts, hospitality settings and related venues.

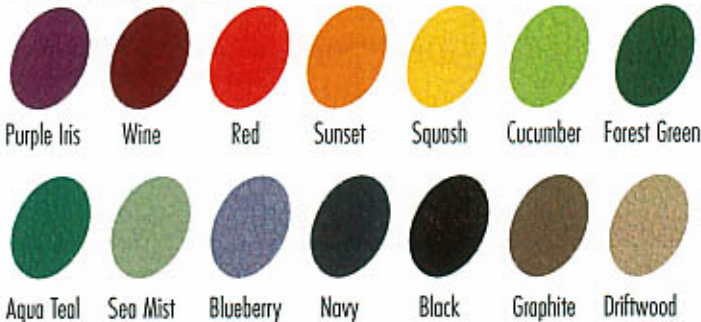

The classically contoured Lunada stack chair features a sculpted shell that comfortably supports a wide range of body types. Another Lunada model gives you an aesthetically balanced, ergonomically contoured premium maple plywood seat and back with generously radiused edges. For those who prefer an upholstered seat, a third Lunada model can be ordered in an array of upholstery choices. And now, the Lunada line includes a selection of additional chairs with custom-designed metal backrests that deliver added definition to discerning decors.

Lunada's color palette includes four appealing wood stain alternatives, 14 vibrant plastic colors, and three attractive frame finishes. What's more, all three Lunada models work with Virco's Lunada table base collection to deliver tastefully coordinated furniture solutions.
