Locker Accessories

Lock Options

Can be used with standard locker handle, and retrofitted to existing installations. For ordering information, contact your local Lyon dealer or factory representative.

Safe-O-Mat Locking System

- A coin-deposit locking system for facilities that desire self-service temporary locker storage, using conventional-style lockers.
- Ideal for student unions, employee lounges, health clubs, shopping malls, etc.
- Designed to be installed in the same manner as a built-in combination lock.
- Can be retrofitted to most existing lockers.
- Available from manufacturing schedules only.

Flat-key locks

Same lock fits all Lyon Lockers except Personal Effects & ExchangeMaster®. Easy to install and furnished with two keys.

Floor Anchoring Systems

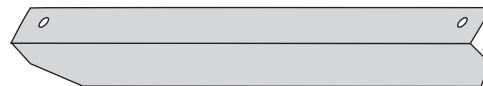

NOTE: For conditions other than outlined below, please contact your local Lyon factory representative.

Locker Foot For Lockers With Legs

When backs are exposed (free-standing) a locker foot is recommended for all locker legs. When backs are against a wall and suitably wall anchored, locker feet are recommended on front legs only. For more details, see assembly instructions packed with lockers.

No. 5870

Anchoring Angle For Lockers Without Legs

Locker Anchoring Angles (running from front to rear on the inside bottom of the locker) provide a bearing surface for the fasteners which are connected to the floor or locker base. For the typical continuous-row locker installation, order one locker anchoring angle for each end of a row, plus sufficient quantity to provide angles on 36" centers. On single-row installations where backs are against a wall, lockers should be suitably wall anchored as detailed in assembly instructions packed with lockers.

No. 5872 - For 12" d lockers

No. 5873 - For 15" d lockers

No. 5874 - For 18" d lockers

No. 5875 - For 21" d lockers

Locker Accessories and Features

Top Closures/Fillers

Used to close space between two tops when obstruction prevents installation of a locker. Can be furnished on flat or sloping tops.

M.I.G. Welded, 16-Gauge Integrated Frame Construction!

Solidly built to deliver years and years of trouble-free service, these top-of-the-line lockers satisfy a wide variety of requirements – including applications in scholastic, athletic and industrial facilities.

- Lyon integrated frame construction adds strength and rigidity for longer life. M.I.G. welded 16-gauge steel bodies with heavy-duty 14-gauge steel doors.
- 18-gauge reinforcing panels welded to inside door facings.
- Durable, recessed, zinc alloy handles with snag-free nickel plated finish include padlock attachment (padlocks not included)
- Optional built-in key locks available.
- Choose diamond-shaped perforations as shown, or mini-louvers (not instock)
- Single or double-tiered selections shown.
- Three, four, five and six-tier all-welded selections also available from manufacturing schedules.

12"w x 18"d x 36"h	3	6	7134AW-3DP

Order lockers by number of openings (doors) required.

All-Welded Heavy Duty Metal Locker Features

Full length **piano-hinges** maintain positive door alignment, prolong smooth operation.

Single point magnetic latch (no moving parts) is securely welded to locker body providing firm seat for repetitive door openings and closings.

Reinforcing panels, securely welded to inside door facing on 6" centers, add strength and rigidity.

M.I.G. welded base channels create solid footing beneath each locker body. Optional 4" high bases afford additional clearance below door openings, prevent accumulations of dust underneath.

New 18" Deep Designer Line Lockers ...

Add optional Sloping Top Kits and Locker Base listed below.

Number plates

Etched black figures on aluminum plate – 2 3/4" w x 1" h. Stocked from 1 to 1000.

No. 5829 – For Lockers and Baskets.

- Quiet door operation reduces clanging and provides smoother opening and closing.
- Louvreless doors block out accumulations of dust and other air-borne particles.
- Compact, full loop hinges afford added strength and positive alignment.

Single tier lockers are widely used to hang full length garments and provide shelf space for personal effects. Double tier lockers offer an alternative for facilities with limited floor space or where shorter garments are commonly in use. Six tier box lockers furnish storage space for folded garments, personal belongings in minimal floor space.

Optional Accessories

Sloping Top Kits prevent accumulations of dirt and debris on tops of lockers. Slant offers easy access for dusting.

Expanded Metal Lockers

Expanded metal lockers provide ideal clothing and uniform storage for schools, arenas, hotels, motels, hospitals, supermarkets and industrial plants. In addition to reducing odor through increased ventilation, visual inspection encourages neatness and discourages storage of unauthorized articles.

TECHNICAL DATA

- Heavy duty 13-gauge steel diamond mesh construction.
- Diamond-shaped steel mesh on front and sides provides maximum air circulation.
- Sizes shown are per locker door opening and should be ordered by number of openings required.
- Product numbers shown are for lockers with 6" legs. Available without legs.
- Locker handles have built-in padlock attachment and may be equipped with built-in locks.
- Lockers are shipped knocked down.

Accessories

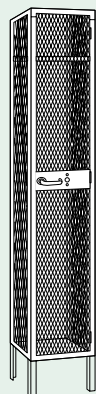

- Closed Front and End Bases, and other Accessories, pages 88-89.

Locker Arrangement Information

When ordering, specify the total number of locker openings required.

Starter
Order one **No. 6012**
and receive
This one section, one frame wide (one locker opening).

Add-On
Order two **No. 6012-2**
and receive
This one section two frames wide (two locker openings).

(A) Single Tier Lockers

Full-length door has three-point latching system. Storage shelf with double-prong coat hook. All lockers have three single-prong coat hooks.

(B) 24" Wide Oversize Team Lockers

Big enough for bulky equipment, in a 24" wide version of the popular single tier locker. Reinforcing K-brace welded to the door frame provides additional strength and proper door alignment. One double-prong coat hook under the storage shelf and four single-prong hooks. Add 6" to height for legs.

(C) Double Tier Lockers

Ideal for use where floor space is limited, or where short garments are stored. All lockers include one double-prong ceiling hook and three single-prong hooks per opening.

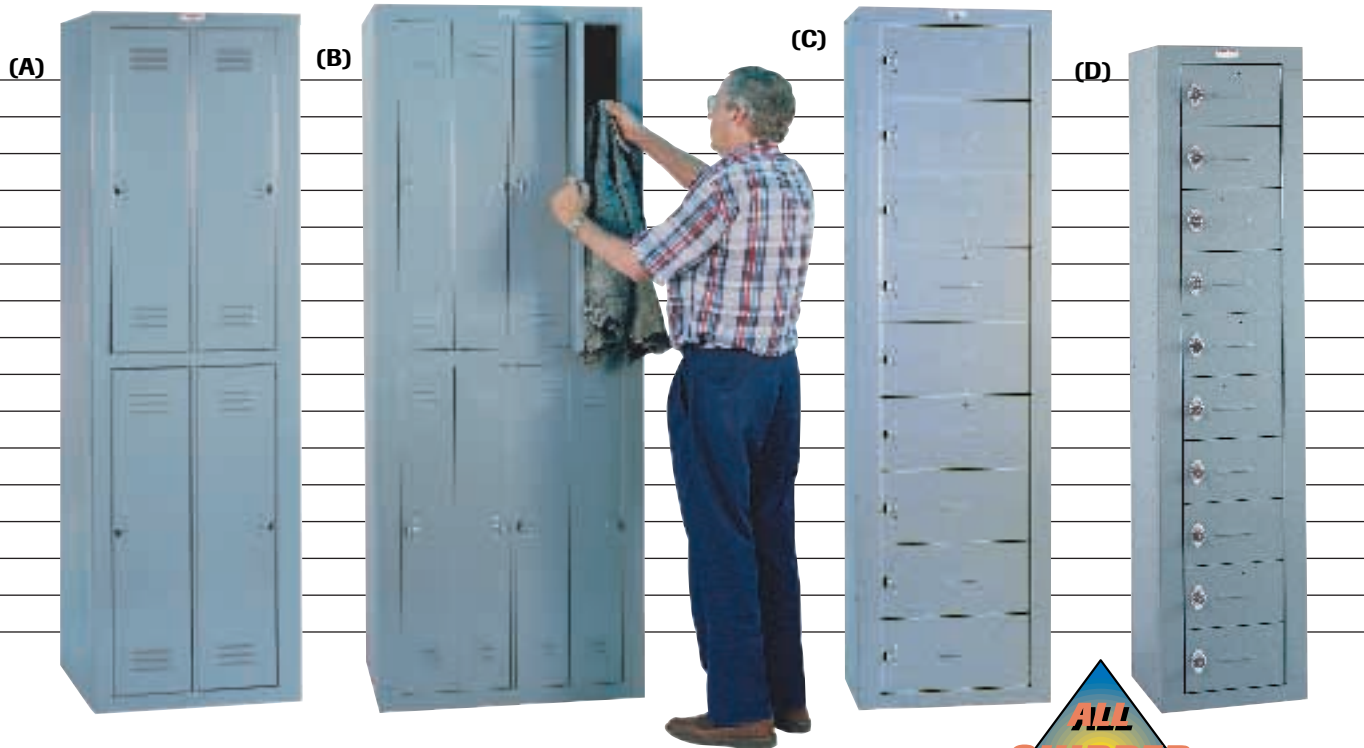

(D) Six Tier Lockers

Six tier lockers provide dense storage for six people. All doors have a combination door pull-padlock hasp. When equipped with built-in key or combination locks, the key or lock serves as the door pull. Doors have 1 7/32" x 1 1/16" diamond shaped perforations. Sides are diamond-shaped steel mesh.

Cat. No.	Size	Cat. No.
Starter (1-Wide)		
(A) Single Tier Lockers		
6012	12" w x 18" d x 72" h	6012-2
6018	18" w x 21" d x 72" h	6018-2
(B) Single Tier Lockers (Wide Team Lockers)		
6023	24" w x 21" d x 72" h	6023-2
(C) Double Tier Lockers		
6034	12" w x 18" d x 36" h	6034-2
6038	15" w x 21" d x 36" h	6038-2
(D) Multiple (6) Tier Lockers		
6064	12" w x 12" d x 12" h	6064-2
6065	12" w x 15" d x 12" h	6065-2

Product numbers listed above indicate lockers with 6" legs. If legs are not wanted, please specify on order.

Ready-To-Use Personal Effects Lockers

ALL SHIPPED SET UP!

Lyon Personal Effects lockers are perfect for limited spaces where employees need a secure place to store their belongings. Designed to hold everything from jackets to purses to lunch boxes. Lyon lockers provide secure storage in a wide range of applications; restaurants, convenience stores, hospitals, service stations and small manufacturing plants to name a few. Number plates also available (see page 88). **NOTE:** Key Locks not available for Personal Effects Lockers.
