P3™ - Presto Pallet Positioner

LOAD LEVELER/ROTATOR

Load and unload pallets without stooping, stretching or walking

The P3™ -Presto Pallet Positioner automatically maintains pallets at a constant level and comfortable working height as layers of boxes are added or removed (see photos below). Leveling is accomplished by a heavy-duty, reinforced rubber airbag that once charged with shop air can handle loads up to 4,500 lbs. After airbag charging is complete the P3 can be disconnected and moved to any location in the plant. Because the P3 is pneumatic it can accommodate loads that vary substantially in weight (from 400 - 4,500) so one unit is versatile enough to work in several areas.

The P3 - Presto Pallet Positioner features a turntable top with full 360° rotation. Anti-friction bearings for easy turning allowing users to spin loads so they are always loading and unloading from the nearside without having to walk around the unit.

Available P3 Options:

Phenolic Cover - Keeps debris from falling through turntable
 Solid Turntable Top - Accommodates small or odd size pallets
 Bellows Guard - Prevents debris from collecting under unit

Presto P3's improve productivity and worker comfort in a wide variety of applications including:

- Printing & Publishing
- Graphics Arts
- Metalworking
- Woodworking
- Machine Feeding or Offloading
- Anywhere that pallet loads are built or broken down!*

P3 - Empty - Fully Extended

P3 - Compressed 1 Layer

P3 - Compressed 2 Layers

P3 - Fully Compressed

CAPACITY	LOWERED HEIGHT	RAISED HEIGHT	SHIPPING WEIGHT
4,500 lbs.	9,5"	30,5"	615 lbs.

Fork Pockets allow easy relocation, and extend base for greater stability.
No lagging required!

One simple connection to shop air, requires no additional power.

Complete the System with a Presto Stacker For Easy Feeding and Offloading of the P3

To maximize the efficiency of your P3, combine it with a Presto Stacker. One stacker can feed multiple P3 units. And, because they are walkies any trained operator can place or retrieve loads from a P3 without having to rely on or wait for a fork lift truck and driver.

Presto Stackers are available in wide range of lifting heights so in addition to feeding and offloading pallets from a P3 they can also be used to access pallet racking.

For additional information, or to find out which P3/Stacker combination is right for you just ask your local Materials Handling Dealer.
