## #410 Airug®

Airug® showcases an improved embossed top surface which enhances the mat's slip resistance and a new compound that increases worker fatigue relief. Plus the new richer black color improves the product appearance. Airug® is a must have in any light to medium duty- dry work area.

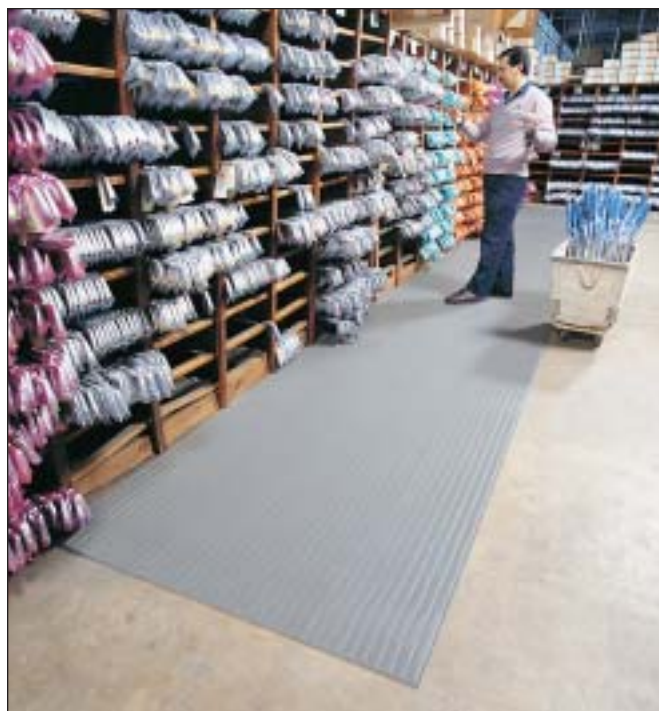

### Product Specifications

- **Closed cell Polyvinylchloride (PVC) sponge compound:** relieves leg and back discomfort
- **Directional ribbed top surface design:** enhances worker traction
- **Overall thickness:** 3/8"
- **All 4 sides are beveled and sealed:** minimizes tripping hazards and resists moisture penetration
- **Available with 4" yellow borders:** use to create a safety zone around workers
- **Available Colors:** Black (BL), Brown (BR), Gray (GY), Black-Yellow (BY)

Stock Sizes	Full Rolls	Custom Lengths
2' x 3'	2' x 60'	Available in 2', 3' and 4' widths
27" x 3'	3' x 60'	
27" x 5'	4' x 60'	6' x 60' – BL only
3' x 5'	6' x 60' – BL only	
3' x 12'

#### Product Specifications

- **Closed cell Polyvinylchloride (PVC) sponge compound:** relieves leg and back discomfort
- **Non-directional pebble top surface design:** easy to clean
- **Overall thickness:** 3/8" and 9/16"
- **All 4 sides are beveled and sealed:** minimizes tripping hazards and resists moisture penetration
- **Available Color:** Black (BL)

Stock Sizes	Full Rolls	Custom Lengths
2' x 3'	2' x 60'	Available in 2', 3' and 4' widths
3' x 5'	3' x 60'	
3' x 12'	4' x 60'	

Available in 3/8" or 9/16" thickness

# Dyna-Shield™

The Next Generation of Sponge Matting is made of a newly formulated compound with Dyna-Shield™, and a revolutionary process perfected by Superior Manufacturing Group

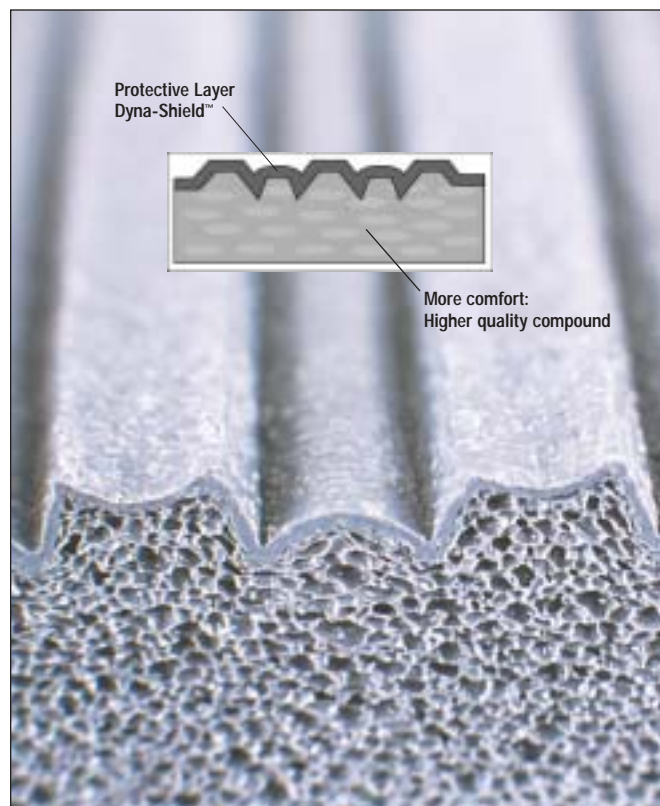

that creates a protective layer on the sponge surface.

Dyna-Shield™ is a tough barrier that is more resistant to wear than traditional sponge matting. In addition to the longer life from this

greater wear resistance, the Dyna-Shield™ mats also outperform the others in tear resistance and tensile strength capabilities!

The result is an incredibly durable top surface that provides unmatched traction for the worker and further enhances the anti-fatigue comfort of the mat.

With Dyna-Shield™ Surface

Without Dyna-Shield™ Surface

## Product Guide

Dyna-Shield™ is included on these designs of our PVC sponge mats:

#415 Pebble Step Sof-Tred™	.....page 35
#419 Diamond Sof-Tred™	.....page 36
#406 Razorback™ NEW DESIGN!	.....page 37
#417 Bubble Sof-Tred™ NEW DESIGN!	.....page 38
#413 Blade Runner™ NEW DESIGN	.....page 39

# #415 Pebble Step Sof-Tred™ with Dyna-Shield™

## #415 Pebble Step Sof-Tred™ with Dyna-Shield™

The closed-cell PVC sponge construction of Pebble Step Sof-Tred™ deflects energy thereby relieving leg and back fatigue. Pebble Step Sof-Tred™ features Dyna-Shield™, which enhances the traction and longevity of the product- resulting in the most beneficial PVC sponge on the market. Designed for use in medium duty- dry work areas.

### Product Specifications

- **Closed cell Polyvinylchloride (PVC) sponge compound:** relieves leg and back discomfort
- **Non-directional pebble top surface design:** easy to clean, with excellent traction
- **Overall thickness:** 3/8"
- **All 4 sides are beveled and sealed:** minimizes tripping hazards and resists moisture penetration
- **Dyna-Shield™ top surface:** resists abrasion; extends service life
- **Available with 4" yellow borders:** use to create a safety zone around workers
- **Available Colors:** Black (BL), Black-Yellow (BY)

# #419 Diamond Sof-Tred™ with Dyna-Shield™

## #419 Diamond Sof-Tred™ with Dyna-Shield™

The non-directional deck plate top surface of Diamond Sof-Tred™ allows for sure footing. Diamond Sof-Tred™ features Dyna-Shield™, which enhances the traction and longevity of the product—resulting in the most beneficial PVC sponge on the market. Designed for use in medium duty-dry work areas such as lab areas, packaging stations, QC areas and shipping departments.

### Product Specifications

- **Closed cell Polyvinylchloride (PVC) sponge compound:** relieves leg and back discomfort
- **Non-directional diamond deck plate top surface design:** easy to clean and enhances traction
- **Overall thickness:** 1/2"
- **All 4 sides are beveled and sealed:** minimizes tripping hazards and resists moisture penetration
- **Dyna-Shield™ top surface:** resists abrasion; extends service life

# #406 Razorback™ with Dyna-Shield™

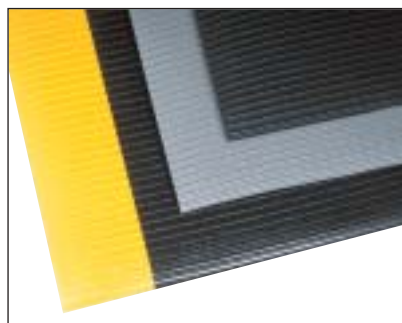

## #406 Razorback™ with Dyna-Shield™

The Razorback™ top surface is designed to provide traction with its wide ribs that run from side-to-side. Razorback™ features Dyna-Shield™, which reduces the effects from pivoting providing a more durable floor mat. Designed for use in medium duty- dry work areas such as lab areas, packaging stations, QC areas and shipping departments.

### Product Specifications

- **Closed cell Polyvinylchloride (PVC) sponge compound:** relieves leg and back discomfort
- **Wide rib top surface design:** enhances traction; easy to sweep clean
- **Overall thickness:** 1/2"
- **All 4 sides are beveled and sealed:** minimizes tripping hazards and resists moisture penetration
- **Dyna-Shield™ top surface:** resists abrasion; extends service life
- **Available with 4" yellow borders:** use to create a safety zone around workers

# #417 Bubble Sof-Tred™ with Dyna-Shield™

## #417 Bubble Sof-Tred™ with Dyna-Shield™

AVAILABLE January 2003

Bubble Sof-Tred™ offers a unique bubble top pattern that maximizes worker comfort. Bubble Sof-Tred™ features Dyna-Shield™, enhancing its durability and ergonomic longevity. Designed for use in medium duty- dry work areas such as lab areas, packaging stations, QC areas and shipping departments.

### Product Specifications

- **Closed cell Polyvinylchloride (PVC) sponge compound:** relieves leg and back discomfort
- **Bubble top surface design:** enhances traction; easy to sweep clean
- **Overall thickness:** 1/2"

# #413 Blade Runner™ with Dyna-Shield™

## #413 Blade Runner™ with Dyna-Shield™

Introducing Blade Runner™, a PVC sponge revolution, which features a corrugated rib top surface. Blade Runner™ also has Dyna-Shield™, making it an exclusive product to the NOTRAX® floor matting line. Designed for use in medium duty-dry work areas such as lab areas, packaging stations, QC areas and shipping departments where traffic flows along the length of the mat.

### Product Specifications

- **Closed cell Polyvinylchloride (PVC) sponge compound:** relieves leg and back discomfort
- **Corrugated top surface design:** enhances traction; easy to sweep clean
- **Overall thickness:** 1/2"
- **All 4 sides are beveled and sealed:** minimizes tripping hazards and resists moisture penetration

# #479 Cushion Trax®

## #479 Cushion Trax®

Designed for ultimate comfort and worker support in the harshest dry environments like assembly lines, lab areas, machinist workstations, and packaging stations. The diamond deck plate vinyl top surface provides non-directional traction and is easy to clean.

### Product Specifications

- **Vinyl top surface bonded to a dense sponge base:** enhances ergonomic benefit and worker comfort
- **Diamond deck plate top surface design:** enhances traction; easy to sweep clean
- **Overall thickness:** 9/16"
- **Available with 4" colored borders:** borders comply with OSHA code #1910-144
- **Available Colors:** Black (BL), Gray (GY), Black-Yellow (BY), Black-Yellow Stripe (BS), Black-Orange (OB), Black-Green (GB), Black-Red (RB), Black-Blue (BB)

Stock Sizes	Full Rolls	Custom Lengths
2' x 3'	2' x 75'	Available in 2', 3'
3' x 5'	3' x 75'	and 4' widths up to
3' x 12'	4' x 75'	75 feet in length
4' x 6'

## #979 Saddle Trax™

Thicker, heavier and stronger, Saddle Trax™ is engineered to meet the toughest requirements of today's industrial environment. This mat is the ultimate anti-fatigue product to maximize worker productivity and comfort; particularly suited to multi-shift operations in dry work areas. Use in conjunction with 520, 920 and 549 to create a complete OSHA recognized environment.

### Product Specifications

- **Vinyl top surface bonded to a dense sponge base:** enhances ergonomic benefit and worker comfort; provides firm support
- **Diamond deck plate top surface design:** provides anti-slip protection
- **Overall thickness:** 1"
- **Available with 4" colored borders:** borders comply with OSHA code #1910-144
- **A full three-year warranty against manufacturer's defects**
- **Available Colors:** Black (BL), Gray (GY), Black-Yellow (BY), Black-Yellow Stripe (BS), Black-Orange (OB), Black-Green (GB), Black-Red (RB), Black-Blue (BB)

# #447 Comfort-Eze™

## #447 Comfort-Eze™

Comfort-Eze™ is constructed of a unique solid rubber design, which stimulates worker comfort and promotes product longevity. The bubble top and offset bubble bottom allow for air circulation enhancing the ergonomic effects. Recommended uses include packaging stations, quality inspection areas, shipping areas and other light to medium duty- dry areas.

### Product Specifications

- **Solid rubber construction:** very long-lasting and is easy to clean
- **Bubble top and offset bubble bottom:** results in continuous bubble pattern that increases air flow and comfort
- **Overall thickness:** 3/8"
- **All 4 sides are beveled:** minimizes tripping hazards
- **Available Color:** Black (BL)

### Stock Sizes

- 18" x 24"
- 24" x 36"
- 30" x 30" \*
- 30" x 60"
- 30" x 10' \*\*

# #545 Diamond Top Interlock™

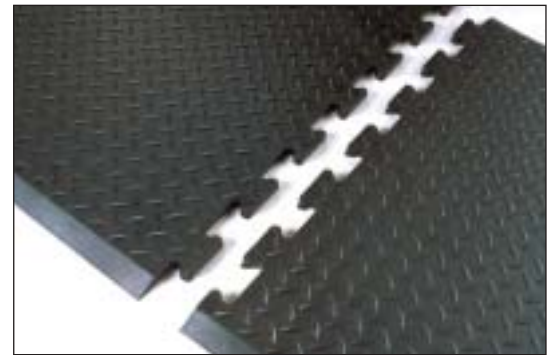

## #545 Diamond Top Interlock™

This mat has a SBR rubber top surface with molded air pockets on the bottom to provide traction and buoyancy. Diamond Top Interlock™ offers continuous lengths with its molded interlocking teeth feature. Recommended uses include assembly lines, picking lines, and other heavy duty- dry work areas.

### Product Specifications

- **Solid rubber construction:** yields a long service life while providing satisfying fatigue relief
- **Diamond deck plate top surface design:** provides anti-slip protection
- **Overall thickness:** 1/2"
- **All 4 edges are beveled:** minimizes tripping hazards
- **Available as a single mat or with molded interlocking teeth for continuous lengths:** allows for customization to application
- **Available Colors:** Black (BL), Black-Yellow (BY)

# #556 Cushion-Ease™ Solid

## #556 Cushion-Ease™ Solid

Cushion-Ease™ Solid is a resilient rubber mat that greatly reduces fatigue from long standing jobs in dry work environments. This mat is designed specifically for the demands of heavy industrial applications and commercial kitchens.

### Product Specifications

- **Solid rubber construction:** very long-lasting and is easy to clean
- **Built-in connectors:** affords customization for mass applications
- **Ramp system uses M.D. #551:** see page 61
- **Overall thickness:** 3/4"
- **Two versions:** Black mat is grease resistant and Red mat is grease proof
- **Available Colors:** Black (BL), Red (RD)

## #758 Niru® Knob-Top Runner™

Niru® Knob-Top Runner™ is constructed of Nitrile rubber which adds safety and traction. Underside consists of alternating rib design allows reversing of mat for extended service life. Recommended uses include aisles, storage areas and other light to medium duty dry areas.

### Product Specifications

- **Solid Nitrile rubber construction:** yields a long service life while providing satisfying fatigue relief
- **Raised knob top surface design:** provides anti-slip protection
- **Overall thickness:** 1/4"
- **Available Colors:** Black (BL), Red (RD), Orange (OR), Gray (GY)

## #480 Pebble Trax®

Pebble Trax® is constructed of a rubber top surface bonded to a dense sponge base, which enhances ergonomic benefit and worker comfort. Designed for the harshest dry work areas, Pebble Trax® is recommended for the following applications: packaging stations, shipping departments, welding areas and assembly lines.

### Product Specifications

- **Rubber top surface bonded to a dense sponge base:** provides excellent fatigue relief
- **Pebble top surface design:** easy to clean and provides non-directional gripping action
- **Overall thickness:** 1/2"
- **All 4 sides of sponge base are beveled:** minimizes tripping hazards by allowing top surface to lay flat
- **Available Colors:** Black (BL)

Stock Sizes	Full Rolls	Custom Lengths
2' x 3'	2' x 75'	Available in 2', 3' and 4' widths up to 75 feet in length

### #470 Marble Sof-Tyle™

Marble Sof-Tyle™ is designed to complement any décor while providing the desired fatigue relief workers need. Recommended uses include QC areas, checkout counters, lab areas and other heavy duty - dry work areas.

#### Product Specifications

- **Rubber top surface bonded to a dense sponge base:** provides excellent fatigue relief
- **Smooth marbled top surface design:** very long-lasting and easy to clean
- **Overall thickness:** 1/2"
- **Available Colors:** Black (BL), Gray (GY), Blue (BU), Beige (BE), Walnut (WN)

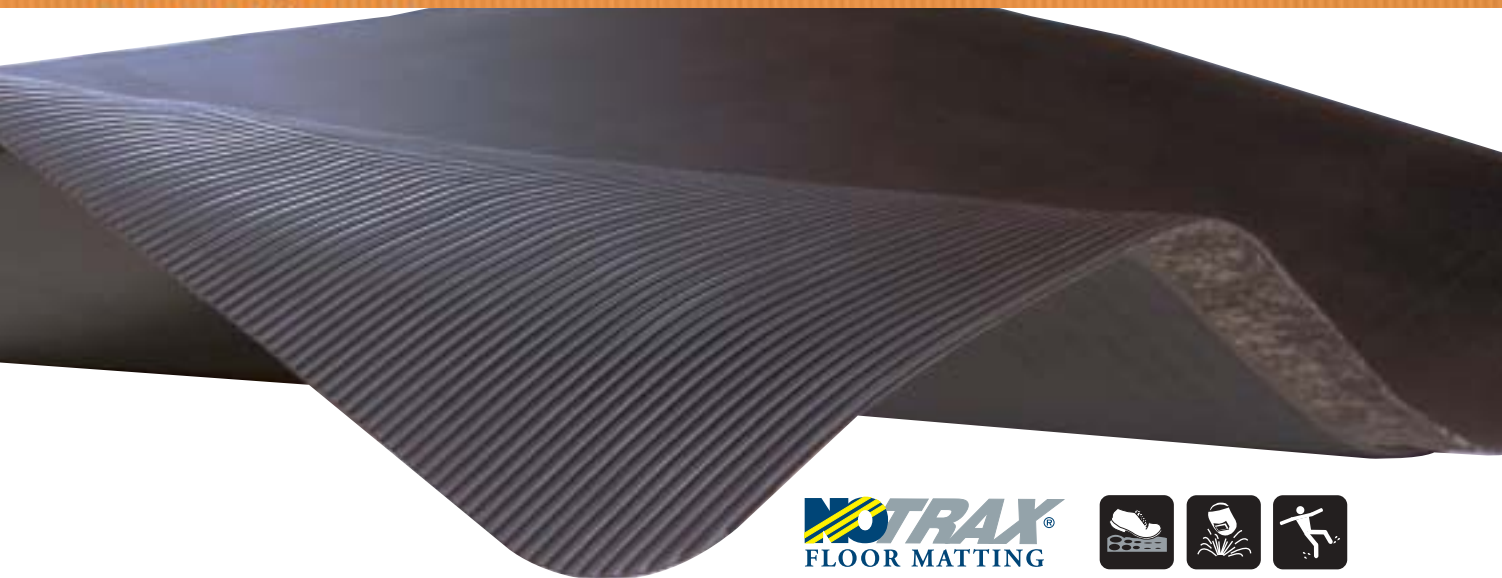

Stock Sizes	Full Rolls	Custom Lengths
18" x 30"	2' x 60'	Available in 2', 3' and 4'

# #474 Ergo Mat™

## #474 Ergo Mat™

With its corrugated top surface, Ergo Mat™ has become a favorite of management and workers alike. Designed for the harshest dry environments, Ergo Mat™ is most widely use in the following work areas: packaging stations, shipping departments, welding areas and assembly lines.

### Product Specifications

- **Rubber top surface bonded to a dense sponge base:** provides excellent fatigue relief
- **Corrugated top surface design:** offers superior directional traction to reduce slips
- **Overall thickness:** 1/2"
- **Available Colors:** Black (BL)

# #920/922HD Cushion-Lok™ Heavy Duty Solid

## #920/922HD Cushion-Lok™ Heavy Duty Solid

Cushion-Lok™ Heavy Duty Solid features proven strength and durability in dry work areas which is backed by a full 3 year warranty against manufacturer's defects. This mat also interlocks with the 520/522 HD Cushion-Lok™ Heavy Duty perforated version for a completely customized work module where various functions are being performed.

### Product Specifications

- **Specially formulated Polyvinylchloride (PVC) vinyl:** enhances ergonomic benefit and worker comfort; provides firm support
- **Raised diamond top surface design:** provides superb traction
- **Overall thickness:** 7/8"
- **Features 6" wide colored borders on three sides:** borders comply with OSHA code #1910-144
- **A full three-year warranty against manufacturer's defects**
- **#922HD Grip-Step® top coat:** abrasive coating that provides additional traction
- **#920/922HD interlocks with #520/522HD:** offers a completely customized work module where various functions are being performed
- **Available Colors:** Black-Yellow (BY), Black-Orange (OB), Black-Green (GB), Black-Red (RB), Black-Blue (BB), Black-Black (BL)
