FastRak Workbench

The *FastRak* workbench utilizes the same heavy-duty components as our popular *FastRak* bulk shelving. Extremely rugged, supporting 1800 lbs. on a 72" wide unit. Worksurface is approximately 36" high. Easy to assemble: Heavy-duty step beams lock into one-piece, all-welded steel legs. Thick 3/4" particle board fits inside step beams and is supported by steel supports to provide an exceptionally strong worksurface. Great for heavy-duty applications including workshops, shipping/receiving and assembly lines. Workbench is available with or without lower shelf.

Single Shelf

- Easy to Assemble
- Up to 2,000 lbs. capacity per shelf

Plastic Bin Storage Units

Series 200A

These highly efficient plastic bin shelving units feature our extremely durable plastic (polypropylene) storage bins and are ideal for organizing small parts. Bin storage units are available either 36" high (6 shelves) or 72" high (12 shelves). Bins can be purchased separately (see below). Bin color: Yellow.

Model Shown Above:
A12-3612-72W-SB4

Model Shown Above:
A6-3612-36W-SB4

- Durable plastic bins
- Bins are waterproof (unaffected by grease and oil)
- Units available with 12" or 18" deep bins

Plastic Bins

These injection molded polypropylene bins are extremely durable and are available in a variety of sizes to fit your specific needs. These bins are waterproof and unaffected by oil and grease. Front of bin has large label area. Bin cups fit into all plastic bins. Plastic bins are available in yellow. Bin dividers available in black.

Cantilever Rack

This heavy duty Cantilever Rack is ideal for storing, bar stock or other long materials. Available with either single sided or double sided base. Columns are available in 8', 10' or 12' heights. Arms are available in 24", 36" or 48" and have 3" spacing increments. Arms utilize 14 gauge steel. Two bases/columns, one brace set and arms are required to make one free standing starter unit. Additional sections can be added to starter unit by purchasing one additional base/column, one brace set and arms. For additional specifications please see our website at www.jaken.com.

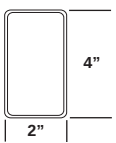

Single Sided
Base/Column

Double Sided
Base/Column

How To Order

A. Select Arm
1. Choose Arm Length
2. Choose either Regular Duty or Heavy Duty based on capacity required.
B. Select Base/Column Size
1. Choose either single sided or double sided base
2. Choose column height
a. When columns serve as load stops, it is necessary to specify column heights greater than the top loading arms. There is no need to pay for extra column height unless load stops are desired or future expansion is anticipated.
b. Arm height adjustable in 3" increment
3. Select appropriate Base for arms selected in "A" above
C. Select Brace Set

Pallet Rack

Make the most of your warehouse space by utilizing this low cost, heavy duty pallet rack. Heavy duty 14 gauge steel, all welded design, and baked enamel finish all combine for years of reliable service. Racks are designed for use with a forklift (or other hydraulic or electrical lift) or for heavy duty hand stacking. Buy pallet rack components separately on facing page or in complete “starter” and “add-on units” on pages 16 and 17. Instructions for fast and easy ordering located on page 16.

One Starter Unit consists of two uprights and four beams (two levels). Add-On units require one upright and at least four beams (two levels).

Popular
Tear Drop Design

Interchangeable with the following
pallet rack manufacturers

Interlake (Original Style), Space Rack, USP,
Speed Rack, Lodi Metal-Tech, Steel King,
Ridg-U-Rak and Husky

Popular tear drop design insures interchangeability with most major pallet rack
manufacturers (see above list of compatible manufacturers).

Pallet Rack Components

Uprights

Constructed of heavy duty 14 gauge steel. Completely welded and set-up. Order two uprights to make one free-standing starter unit. Add-On units require only one additional upright (and load beams). Uprights feature 3" wide x 1 5/8" deep columns (capacity 19,400# per upright based on a maximum shelf spacing of 36"). Footplate measures 3" wide x 4 1/4" deep. Beams can be adjusted every 2". Upright color: Light Green.

• All Welded Construction

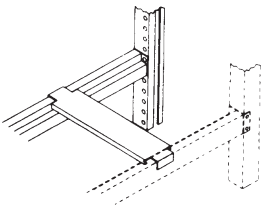

• High Capacity

Model Number	Height	Depth	Wt. Lbs.
215-IU36096	8'	3.0'	38
215-IU36120	10'	3.0'	47
215-IU36144	12'	3.0'	58
215-IU42096	8'	3.5'	41
215-IU42120	10'	3.5'	48
215-IU42144	12'	3.5'	60
215-IU48096	8'	4.0'	43
215-IU48120	10'	4.0'	52
215-IU48144	12'	4.0'	63

Steel Safety Supports

Use Safety Supports as front to back member to support pallets or wood decking. Safety Supports can also be used in conjunction with wood decking to provide additional support for hand stacking applications.

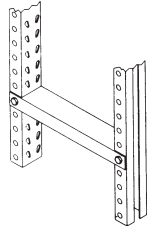

Upright Depth	Model Number	Wt. Lbs.
3.0'	215-ISS36	5.3
3.5'	215-ISS42	6.2
4.0'	215-ISS48	7.1

Row Spacer

Row Spacers are used to connect rows of pallet rack (back to back). Spacers increase stability and maintain consistant spacing between rows.

Row Space	Model Number	Wt. Lbs.
6"	215-IR06	1.0
12"	215-IR12	2.0

Label Holders

Extra large for Pallet Rack applications. Self adhesive or magnetic label holder allows for simple label relocation. Side loading. Includes Ink Jet/ Laser compatible white inserts with instructions. Bar code capatible.

Pallet Rack Label Holders		
Model	Description	Pack
215-L335	3" x 5", Self-Adhesive	50
215-L335M	3" x 5", Magnetic	50
215-L346	4" x 6", Self-Adhesive	50
215-L346M	4" x 6", Magnetic	50

Step Load Beams

Two beams are required to create a shelf. Beam length is measured by clear span between uprights. Each beam features a built in safety clip which helps prevent the beam from detaching from the upright. Interchangeable with most major pallet rack manufacturers (see page 14 for list of manufacturers). Beam capacities are based on a evenly distributed load and have a 1.65 safety factor. Load beams are sold per beam. Beam color: Orange.

Regular Duty

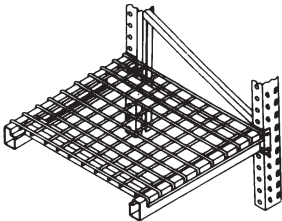

Heavy Duty

Model Number	Beam Height	Beam Length	Wt. Lbs.
Regular Duty			
215-IB40096	4"	8'	28
215-IB40108	4"	9'	32
215-IB40120	4"	10'	35

215-IB50120	5"	10'	40
215-IB50144	5"	12'	48

Wire Mesh Decking

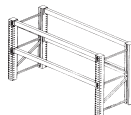

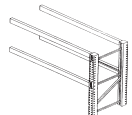

Open wire construction reduces dust build-up and allows free light and air circulation, increases sprinkler effectiveness and improves visibility. 3500 lb. capacity per level. Features 4 gauge wire and 2" x 4" spacing. Two decks used per shelf on the 96", 108" & 120" wide units. Three decks used per shelf on the 144" wide units. Color: Gray.

How to Order:

Uprights

1. Upright capacity - Calculate upright capacity by adding total weight of goods being stored. Do not include goods being placed on floor.

2. Upright height -

Step #1 Calculate load height by adding height of palletized goods plus 4" for clearance between palletized goods and the beam supporting the next level.

Step #2 Add height of beam (Either 4" or 5")

Step #3 Multiply the sum of Step #1 and Step #2 by the number of load levels.

Note: Top load height need not be counted in determining upright height.

3. Upright depth - Deduct 6" from pallet depth to allow 3" pallet overhang front and rear. For example: a 48" deep pallet would require a 42" deep upright.

Load Beams

1. Beam Length - Multiply pallet width by the number of pallets being stored on each level plus 12" for clearance. For example: two 48" wide pallets would require 108" long beams.

2. Beam Capacity - Determine capacity by multiplying the number of pallets per pair of load beams by the weight of each pallet.

How to Order:

Uprights

1. **Upright capacity** - Calculate upright capacity by adding total weight of goods being stored. Do not include goods being placed on floor.
2. **Upright height** -

Step #1 Calculate load height by adding height of palletized goods plus 4" for clearance between palletized goods and the beam supporting the next level.

Step #2 Add height of beam (Either 4" or 5")

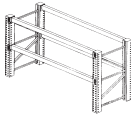

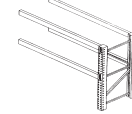

Step #3 Multiply the sum of Step #1 and Step #2 by the number of load levels.

Note: Top load height need not be counted in determining upright height.
3. **Upright depth** - Deduct 6" from pallet depth to allow 3" pallet overhang front and rear. For example: a 48" deep pallet would require a 42" deep upright.

Load Beams

1. **Beam Length** - Multiply pallet width by the number of pallets being stored on each level plus 12" for clearance. For example: two 48" wide pallets would require 108" long beams.
2. **Beam Capacity** - Determine capacity by multiplying the number of pallets per pair of load beams by the weight of each pallet.

Vertical Stock Rack

Model 235-SRV1:

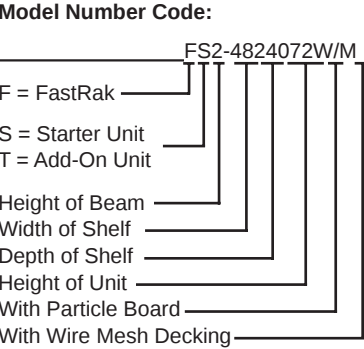

High strength tubular steel arms extend 8" from the frame. Pan shelves are spaced 21" apart. The unit base is 36" wide x 24" deep. Unit is 84" high and has a capacity of 3,000 lbs. Unit weight is 80 lbs.

Horizontal Stock Rack

Model 235-SRH1 (2 Shown):

This unit is 84" high x 22" square at bottom and is tapered to 4^{1/2}" square at the top. Angled steel arms are spaced every 8^{1/2}" and extend 8" from uprights. Capacity per pair of arms is 100 lbs. Unit weight is 60 lbs.

Model # FS3-9636120M
with two extra shelves
(Model # FX3-9636M)

Model # FT3-96396120W

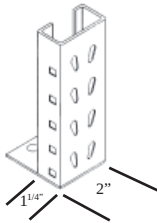

Single Unit
Model # FS2-7224072W

Components

Uprights

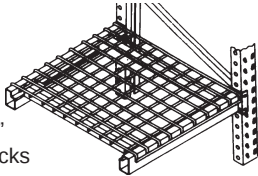

- All Welded
- Uprights allow adjustment of shelf height every 1 1/2"
- 7,000 lb. capacity per upright

Part Number	D x H	Wt. Lbs.
215-CU18072	18" x 72"	19
215-CU18096	18" x 96"	24

215-CB30072	3" x 72"	3	1,800	12
215-CB30096	3" x 96"	4	1,600	16

Label Holders

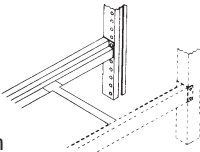

- Extra Large for FastRak Applications
- Self adhesive or magnetic
- Bar code capatible

Model	Description	Pack
215-L335	3" x 5", Self-Adhesive	50
215-L335M	3" x 5", Magnetic	50
215-L346	4" x 6", Self-Adhesive	50
215-L346M	4" x 6", Magnetic	50

Safety Supports

- Shelf Supports reinforce particle board for added strength and stability
- Used in conjunction with particle board to maximize shelf capacity
- Use 2, 3, or 4 supports per pair of beams (see load beam information at left for details)

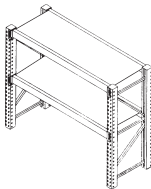

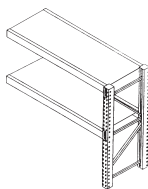

Model Number	Support Length	Weight Lbs.
215-CSS24	24"	1.5
215-CSS36	36"	2.5
215-CSS48	48"	3.0

- Alternative to Pallet Rack

- Beams lock securely into Uprights

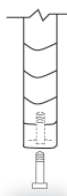

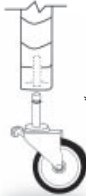

- Available with Wire Mesh Decking or 3/4" Particle Board

Wire Shelving Components

Wire shelving components can be purchased separately to meet your specific requirements. Shelves can be adjusted in 1” increments and we offer a variety of post sizes. Stationary posts include an adjustable leveling bolt to compensate for uneven surfaces. Components are available in Chrome Plated, Black Powder Coat, and Green Epoxy finishes. Chrome, Black, and Green Wire Shelving are NSF certified by the National Sanitation Foundation.
